

Team Challenge – World Geography

The object of this game is to fill in each blank below with the **name** of one of the 197 **countries** in the world. You must work together, be clever, creative and stretch your verbal imagination. Most of the answers are “word plays” or “puns”. You may use any online resources to assist you. Please DO NOT share your answers with other students in different teams or recitation sections. Make them figure it out as a team. If you **cheated** and got answers from another student, SHAME ON YOU!, and please do not share your answers with your team. Be a leader and challenge them to figure it out.

HINTS: By region key below. Some countries span regions.
